NITROGEN TIRE TREATMENT

NITROGEN INFLATED TIRES CAN IMPROVE FUEL EFFICIENCY BY UP TO 10%

Nitrogen has been used for over 20 years by the Airlines, Military, NASCAR and Industry...WHY?

These professionals have recognized the safety and performance benefits that Nitrogen Inflated Tires has to offer. Over 54% of Americans drive on underinflated tires. Nitrogen maintains correct tire pressure up to 4 times longer than air.

SAFETY

Nitrogen is more stable than air - it is not subject to fluctuation as outside temperatures rise and fall. Providing uniformly inflated tires. Which gives the vehicle better performance in fuel savings and improved tire wear. Nitrogen inflated tires also provide superior handling characteristics - another reason it is used by serious professionals whose lives ride on their tires. It is now available to you!

Made in America

DIRECTIONS:

1. Attach TireXtender™ hose onto tire valve
2. Keep can in UPRIGHT position
3. Press can button until flow sound stops.
4. Remove hose and check pressure with gauge
5. Using tire gauge, Reduce Tire Pressure to Manufacturer's recommended pressure.
6. Repeat steps 1-5 on other tires until the can is empty.

- Use TireXtender™ for your motorcycle, RV, bicycles and other rubber tires that use air
- A loss of just 3 psi per tire can reduce performance and gas mileage significantly.

CHECK YOUR TIRE PRESSURE REGULARLY!

MAINTAINING NITROGEN INFLATED TIRES IS SIMPLE: GoNitroTire recommends checking your tire pressure regularly. Nitrogen Tire Inflation can save Money and Improve the Safety of your vehicle. See the chart below - data based on 20 mpg.

Miles Driven Per Year	Average Cost of Gas	5% Fuel Mileage Saves
15,000	\$4/gallon	\$150.00

NITROGEN INFLATED TIRES ARE

HYBRID TIRES: At GoNitroTire we help you save money with tires that perform at their safest, with performance that rivals professional race cars. The Hybrid Tires that Nitrogen creates helps us all maintain our balance with the environment more efficiently. Reducing the 300 million tires disposed of in landfills every year, here in the United States alone! Nitrogen makes a difference in our cars performance. Tell your Friends!

CAUTION: CONTENTS UNDER PRESSURE.

Contains: Nitrogen (7727-37-9). Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F.

FIRST AID: If contact with eyes occurs, flush thoroughly with water for 15 minutes. In all cases of accident, contact physician immediately. If contact with skin occurs, wash with soap and water. In case of breathing difficulty or person overcome, give oxygen. Call a physician immediately.

INTENTIONAL MISUSE BY DELIBERATELY INHALING THE CONTENTS MAY BE HARMFUL OR FATAL.

KEEP OUT OF THE REACH OF CHILDREN.

NITROGEN TIRE TREATMENT

- EXTENDS TIRE LIFE
- INCREASES GAS MILEAGE
- HELPS THE ENVIRONMENT
